A. V. Bowles, Jr., December 19.

Emory Florence, December 21.

Mrs. FELIX FLYNN, Chairman.

"Tarzan of the Apes," the strangest story ever written and the picture that has given theatergoers a new kind of thrill, at the Princess December 24.

#### JANUARY HOG PRICES.

Nashville, Tenn., December 10, 1918.—The United States Food Administration authorizes the announcement that the December hog price agreement between the Food Administration and the packers has been continued through January. This means that sales will be made on the Chicago market during January on the same prices basis upon which they were made during December and November. Top hogs will sell at a minimum price on that market of \$17.50.

But it is still highly desirable that the light weight hogs be held back for the next few weeks and it can again be stated that all available hog products that can be spared will be required for foreign shipment for the next several months. Producers and farmers will make a mistake if they continue to ship underweight hogs to market. Not only are these hogs not protected by the price agreement, but a rush of immature hogs to the market would jeopardize the agreement on top hogs.

Please give this statement all possible publicity in your county.

Faithfully yours,

H. A. MORGAN,

Federal Food Administrator

#### Flattery Did It.

"You seem able-bodied and healthy; you ought to be strong enough to work," she remarked scrutinizingly.

"Yes ma'am I know. And you seem beautiful enough to be on the stage, but evidently you prefer the simple life."

He got a meal without any further reference to work.—People's Home Journal.
